The Committee on Deceased Members report the death of the Rev. James Alexander, D.D., a venerable member of the Presbytery, which occurred July 29, 1879, at his home in Moundaville, W. Va. Dr. Alexander was born near Mercer. Pa. in 1798, graduated at Jefferson College in 1836 studied theology under his pastor, the Rev. Samuel Tait, and was licensed to preach April 9, 1828, and was ordained and installed as pastor of the united churches of Salem, Greenville and Big Bend in the Presbytery of Biairsville in October of the same year. He was called to the church of Hopewell in the Presbytery of Ohio in 1834, where he labored until 1839, and then accepted a call to St. tery of Ohio in 1833, where he labored until 1830, and then accepted a call to St.
Clairsville, Ohio, resigning the latter
charge in 1846. He served the church at
Martin's Ferry in the same Preebytery for
a period of thirteen years, and was thence
called to Allen Grove and Wolf. Run in
1859 and to Moundsville in 1867, all of
the last three churches being in West
Virgiuia and in the Preebytery of Washington. His last charge was surreadered
about two years ago, when he had, rounded out nearly half a century of ministerial
service. The same reason about the same
time compelled his retirement from the
Board of Trustees of the Washington and
Jefferson College and from the Board of
Directors of the Western Theological Seminary, after a long and honorable service
in each. In 1857 he received the honorary title of Doctor of Divinity at the
hands of his Alma Mater. He was a consistent Christian, a laborious and successful minister and a wise Presbyter. "His-

Hight Time to Operage in Stocks.

By recent communication with prominent stock operators, we learn that now is a favorable time to take advantage of the stock market by the new combination method of Messra. Lawsence of Co., the New York bankers, who have been so remarkably successful heretofore. This system is founded on correct rules of finance and is universally approved by the shrewdest operators. The orders of thousands of sustomers are massed into one immense capital, and operated as a great whole, dividing profits pro rate-very month. In this way any customer can inyest from \$10 to \$10,000 with equal proportionate success, and at the same, time gain all the advantages of largest capital and heat skill in ganiping ting the parket, Thus firm's pay circular has "two unerring rules for success", and full explanations. \$50 will make \$250, or 5 per cent; \$500 will return \$3,000, and so on, according to the market. Stocks and bonds wanted. Deposits received. Apply to Lawrence & Co., Banks, and a contract of the contract of
